

# **Hingham Conservation Commission Wetlands Flagging Regulation**

## **WETLANDS FLAGGING REGULATION**

**The following information shall be submitted to the Hingham Conservation Commission at the time of the filing of an application.**

- 1. Wetlands flagging shall be marked on the site and shall be clearly visible in the field to the Hingham Conservation Commission or its agents.**
- 2. Wetlands flagging shall be numbered consecutively on site, and on the corresponding site plan.**
- 3. Each individual wetlands line shall be indicated on the wetlands flag by letter and consecutive number, and shall be indicated on the corresponding site plan.**
- 4. Plans should clearly indicate the 100' buffer zone, as well as the 50' buffer strip. The plan should also indicate the buffer zone for all adjacent properties to the development.**
- 5. Wetlands flagging must be current. The line must have been delineated within 3 years.**
